

# **MARKSMAN™ SB**

Stacked Bowl Packaging System

# MARKSMAN™ SB

Bowls

The Marksman™ SB is a servo driven / servo changeover packaging machine for stacked bowls. It combines our patented market-proven wrap locking system with an innovative carton design that provides a strong, functional paperboard package without glue. The Marksman SB is easy to operate, maintain and changeover.

## Machine Features

### Standard

- GPI standard lock
- Venturi vacuum system
- Solid lube bearings
- 10,000 carton capacity magazine
- Lock-Detection with Reject in machine

### Frame

- Stainless steel frame with corrosion resistant components

### Guards

- Full height, clear hinged guard doors providing easy walk-in access to the machine functions for changeover and maintenance

### Changeover

Automatic pushbutton changeovers are quick, and simple

### Changeover Time

5-10 minutes

## Specifications

### Machine Product Elevation

41-1/4" +/- 2" (1048mm +/-50mm)

### Stacker Elevation

48-1/4" +/- 2" (1219mm +/-50mm)

### Machine Weight

Approx. 15,000lbs (6800 kg)

### Air Requirements

80psig- 8 CFM  
(6 bar - 14 m3/h)

### Electrical

460VAC/3Ph/60Hz

### Main Drive Motors

Servo

### Package Closing System

GPI Lock System

### Speed

Packages Sealed Bowls at speeds up to:

Line	Surge
294 bowls/min	337 bowls/min

## Primary Container Size

Plastic Tub  
Diameter: 135mm  
Height: 36mm  
Volume 210g

## Pack Styles

Straight Wrap

## Pack Formats

Standard:

1x1x2 147ppm line 168ppm surge	1x1x3 120ppm line 145ppm surge
1x1x4 100ppm line 120ppm surge	1x2x2 100ppm line 120ppm surge
1x2x3 67ppm line 80ppm surge	1x2x4 50ppm line 60ppm surge
1x2x5 40ppm line 48ppm surge	1x2x6 33ppm line 40ppm surge

## Machine Footprint
